

Hello All ~

1. I am happy to report that we have 10 residents to stand at the podium at the January 12 Board of Supervisors meeting. Thank you so much for your good response!

2. We sent our finalized report and recommendations to all five supervisors, electronically, and asked for meetings with each of them, sometime before mid-February. We have appointments with four supervisors so far! We have 2 - 3 people for each meeting, so as not to overwhelm. We need one more person from District 3 (Coonerty), from District 2 (Friend) and from District 5 (McPherson).

3. It is important that there be at least one constituent of each district at the meetings, to make this real for you supervisor. I think Teri Knowlton may be able to make it for District 2 and look forward to her reply to this email to confirm so. If not, we want to know if someone else can attend from Zach Friend's district.

The meetings are scheduled thusly:

Greg Caput January 14 at 11:00 am (no one else needed for this one)

Zach Friend January 20 at 2:00 pm (one more who resides in District 2 needed)

Ryan Coonerty January 22 from 10:30 am - 11:00 am (one more who resides in District 3 needed)

Bruce McPherson January 25 at 1:00 pm (one more who resides in District 5 needed)

In all cases, we will meet 10 minutes before the appointment time, in the lobby of the Supervisor's office on the 5th floor of the County Government Center. The meetings will last less than an hour.

I look forward to hearing from any of you who can attend a meeting with your supervisor (as noted above). The purpose of these meetings is to listen to questions each supervisor may have about our report and recommendations, so those of you who will be at the meetings will want to study our 5 page report before the meeting. When I know who is willing to do this and be at the meeting, I will send you the report electronically. In any case, our report will be posted on our web site no later than tomorrow evening, so you may read it there also (the menu item will read BOS Recommendations).

Wouldn't it be nice if we get some press after our presentation at the BOS meeting tomorrow?!

All the best,
Jean
